A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 21-32 are rejected under 35 U.S.C. 102(b) as being anticipated by 5,613,890 to DeMars. DeMars discloses a housing having a front opening (fig 1-2), a bubble generating ring positioned adjacent the front opening (106), an air generator (60 and 62) associated with the housing that directs air towards the bubble generating ring and an air control system that has a cover element (72) which is adjusted to cover selected portions of the air generator (column 4 lines 37-64 of the specification); wherein the air generator is a fan that is aligned with the bubble generating ring (fig 3); wherein the air generator is housed inside the housing (fig 3); further including a motor (48) retained inside the housing and coupled to the air generator (fig 3) and a trigger (18) coupled to the motor for activating the air generator (column 3 lines 63-67 and column 4 lines 1-36); further including a source of bubble solution (110) and a tubing (98) that couples the source of bubble solution and the bubble generating ring, a pump system coupled to the tubing and a trigger coupled to the pump system to control the delivery of the bubble solution to the bubble generating ring (column 5 lines 4-43).
